

# 1000/1005

table top  
label applicator

The LabelMill® 1000 label applicator is a semi-automatic table top label applicator which features fast, easy changeover to meet a variety of labeling needs. Using the unique rail-mounted modules, the Label Mill 1000 can serve as a label dispenser, tamp applicator, round-product applicator, and flag applicator. Because this unit can do them all, there is no need for additional units for each type of application. Changeover from one application to another in five minutes or less. The LM-1000 is built for heavy-duty industrial use. Hand-held labeler interface makes changeover and control adjustments quick and easy.

- Modular Design
- Label Dispenser
- Tamp Applicator
- Flag Applicator
- Round Product Applicator
- Auto-Round Module
- User-Friendly Operating Software
- Batch Counter
- Hand Held User Interface
